 [linkedin.com/in/benoitcourbin](https://www.linkedin.com/in/benoitcourbin)

 Barcelona, Spain

Transdisciplinary designer with 20 years of experience in design offices, architecture and specialized sectors (textiles, naval). I design and optimize projects through parametric design, advanced digital tools and artificial intelligence applied at AECO, a field in which I am currently doing a master's degree. Teacher for more than ten years (Rhino 3D, Grasshopper, V-Ray), I now put my expertise at the service of companies looking for a creative and innovative profile, capable of linking design, emerging technologies and strategic vision.

Languages

French: native
Spanish: current (C1)
English: Conversational (B2)
Catalan: Beginner (A2)

Personal Skills

Teamwork Time
Management
Problem Solving
Autonomy
Creativity

Skills

3D Modeling + Rendering
Computer Graphics
Plan File Creation
Project Management
Site Monitoring
Quotes and Cost Calculation
Technical Reports
Implementation of AI tools
Teaching

Software

2D : AutoCAD, PowerCad.
3D : Rhinoceros + Grasshopper,
SketchUp, 3ds Max.
BIM : Revit + Dynamo, Archicad
Mechanical: SolidEdge, SolidWorks
Rendering: V-Ray, KeyShot.
Computer graphics: Photoshop,
Illustrator, InDesign, Acrobat.
Pack Office (+ VBA).
Hydrostatic: Circée Maat.
A.I.: n8n, midjourney, etc.

Professional Experiences

• Freelance draftsman in interior design

Design and follow-up of renovations.
Creation of images and plans for residential projects (single-family houses, collective housing) and tertiary projects (offices, restaurants).

• Teacher in 3D Modeling and Rendering

École CYDesign – Université Paris-Cergy – Saint-Germain-en-Laye, France – 2023
<https://www.cy-ecolededesign.fr/>

Modeling with Rhinoceros 3D.
Volumetric, surface and parametric.
Renderings (objects, architectures).
Infographics / plans.
Preparing files for production.

• Head of the integrated design office in Textile Architecture – 3 years

AB2CS (textile architecture and circus tent) – Bordeaux (France) – 2012-2015

Design of textile membranes and mechanical parts.
Double curvature development.
Technical watch and evolution of standards. Prototype development.
Follow-up of installations.
Manufacture of circus tents.
International collaboration.
Creation of specific software.

• Teacher of 3D modeling and digital tools – 6 years

École Camondo (Les Arts Décoratifs) – Paris (France) – 2009-2015
<https://www.ecolecamondo.fr/en/>

• Architectural Draftsman – and 3D Graphic Designer – 3 years

Paranteau-Ithurbide Architecture Agency – Bordeaux (France) – 2006-2009

Research (conceptual and formal)
Timber frame, tertiary and industrial building
2D, 3D computer graphics
Creation of plan folders.
Follow-up of the realization of interior fittings.

- **Naval Architect** - 6 months

Naval architecture firm Chenus Presles et Associés (C.P.A.) - Paris (France) - 2005

Hull design

Business Plans - 3D Renderings

Basis in Stability Calculation and

Sampling

Mass Quote

- **Naval Designer** - 3 years

Couach shipyard _ Gujan Mestras (France) - 2001- 2004

<https://couach.com/fr/>

Business Plans - 3D Renderings

Design of Interior Fittings

Deck plans, choice Fittings

Design of specific parts (hoods, mold insert, etc.)

Method and production

- **Industrial Designer** - 7 months

Spie S.O. (fibre optic network and street lighting)_Bordeaux (France)

Implementation of the management of public lighting in the city of Arcachon.

Deployment of fibre optics on the Gironde.

Formation

Master's Degree in Artificial Intelligence for AECO

Zigurat Global Technology Institute – Ongoing University of Barcelona (2026)

<https://www.e-zigurat.com/es/master-artificial-intelligence-architecture-construction/>

C.E.A.A. Naval Architecture

École Nationale Supérieure d'Architecture de Paris–La Villette – 2005

<https://paris-lavillette.archi.fr/formations/post-masters/dpea-architecture-navale/>

D.E.S.C.D. Product Design section

I.E.D. Toulon – 2003

Alternating with the Couach shipyards

D.U.T. Mechanical and Production Engineering

University of Bordeaux 1 – 2001

More about me

I am a native French speaker and father of two, living in Barcelona for the past ten years. Curious and open-minded, I enjoy discovering new cultures through travel, encounters, and the arts.

Passionate about music, I play the guitar, and I also love sailing, chess, comics, architecture, design, and graphic arts. In my free time, I explore Barcelona with my children or meet friends to share good moments and new inspirations.
